

## 2.6 Kingsley Enterprises Pty Ltd - Quality Policy

# Quality Policy

Kingsley Enterprise's specialises in the development, procurement and manufacture of engineered equipment, supplying mainly 4WD and SUV vehicle accessory markets. The nature of the company's activities places particular emphasis upon experience, expertise, capability, reliability and quality.

It is the objective of Kingsley Enterprises to employ all of its skills and resources in meeting the needs and expectations of its customers, so as to maintain a reputation for excellence relating to the provision of high quality, value for money, equipment and associated services.

It is also an objective of Kingsley Enterprises to provide this equipment and the associated services in a manner, which conforms to contractual and regulatory requirements.

In order to achieve these objectives it is the policy of Kingsley Enterprises to establish and maintain an effective Management System. It is the responsibility of all employees to be committed to, and involved in the effective operation of the Management System.

The directors and the general manager are totally committed to the Management System's ongoing development and the continual improvement of its effectiveness throughout the organization.

Top management's commitment to quality and customer satisfaction will be communicated to all company personnel.

The Quality Assurance Program of Kingsley Enterprises, implemented through its Management System, is based upon the requirements of ISO9001:2015.

David Petrie
