

2.5 ARB Corporation Limited – Environmental Policy

Environmental Policy

Kingsley Enterprise specialises in developing, procuring and manufacturing engineered equipment, supplying mainly 4WD and SUV vehicle accessory markets. Kingsley will always conduct its business in an environmentally responsible manner endeavouring to minimise any impacts of its activities on the environment.

Kingsley is committed to:

- Maintaining a management system compliant with the requirements of ISO 14001:2015
- Fulfilling compliance obligations.
- Continually improving our environmental performance and adhering to the principles of cleaner production.
- Protecting the environment.

To achieve this, we have implemented environmental objectives and programs to efficiently use resources and minimise waste production. Where practicable, we redesign products and processes to improve environmental performance. We will commit sufficient resources to enable our environmental objectives to be met.

Kingsley regularly monitors and reviews its environmental programs and ensures they are compatible with quality assurance and occupational health and safety systems.

The environmental policy and programs are communicated to all employees. Stakeholders, including customers, contractors and suppliers will be made aware of Kingsley's environmental policy. The policy will also be made available to the public.

Kingsley will engage with state and local government authorities and the community in developing responses to issues of environmental concern as required.
